Ohio Transition Plan Initially Approved

Ohio is one of three states that has received initial approval from CMS (Centers for Medicare and Medicaid Services) for its 'Transition Plan' related to home and community based services funded by Medicaid. The plan was in response to the new CMS regulations adopted in 2014. The final approval of the plan will follow the completion of actions that will be taken to ensure compliance with the new regulations. These regulations were approved to assure that individuals have full access to community living. To review the plan click below:
