Winter Weather Notifications

Marcy Samuel, Director of Program Operations for FCBDD has recently sent out winter weather guidelines for calamity days. While we will hope the winter is mild, there are days when you will want to tune into the local television and radio stations when threatening weather. Generally decisions to cancel transportation are made at 5:00 a.m.

We have recently learned that Ohio Alerts will no longer be able to send text or email alerts to our staff or families after January 1. We are researching alternatives and keep in mind that you can also sign up with many local television stations for text alerts. For details on winter weather procedures, please call Marcy Samuel at 614-475-6440.
