Multi-System Pilot Project for Youth Begins

The Multi-System Residential Pilot Project began on March 1, with the first individual moving into the renovated apartment at Kimberly Woods. This project is a partnership between the Franklin County Board of DD; Franklin County Children Services; ADAMH; the Family and Children First Council and Franklin County Residential Services, Inc. (FCRS). FCRS has done great work in getting the service established for youth who may be connected to multiple child serving organizations. Click below to read a story on the project that appeared in the Columbus Dispatch on March 5, 2017:
