Disenrollment from Medicaid Waivers

State officials have reminded Ohio's County Boards of DD that people who do not use their Medicaid Waiver services will be disenrolled from the Level 1, IO, TDD or SELF Waiver. If a person only uses the Medicaid 'Card' for therapies, insurance or other purposes, but does not utilize Medicaid waiver services, he/she will be disenrolled from the Waiver. Unless otherwise eligible for Medicaid, the loss of the Medicaid waiver would also mean loss of the Medicaid 'Card'. For details or to be sure one does not lose their Medicaid waiver, individuals or family members are advised to contact their Service Coordinator.
