### **Remote Support is great option for some!**

Remote Support for individuals is a great option for some thanks to advances in technology. It is the use of electronic equipment to support and assist people in their home as an alternative to the constant physical presence of staff in someone's home. This service can be funded by Medicaid waivers and is available now in Franklin County. Those interested should contact their Service Coordinator. To learn more, check out this video by clicking on the following link:
